- Skilled in MVVM architecture, app performance optimization, and debugging.
- Strong knowledge of UI/UX implementation and cross-device compatibility.
- Experienced in integrating third-party APIs and libraries into production apps.
- Committed to delivering high-performance and innovative mobile solutions.

### Intern Android Developer — EmpowerSoft Tech

January 2023 – March 2023

Multan, Pakistan

- Built a strong foundation in Java, XML, and Android SDK.
- Gained hands-on experience with Firebase and REST API integration.
- Contributed to real-world Android development tasks while continuously learning best practices.
- Focused on building user-friendly apps with clean, maintainable code.

## SKILLS

- Languages: Java, Kotlin
- UI Toolkits: Jetpack Compose, Android XML/View system
- Database: Room, SQLite, Firebase
- Architecture: MVVM, MVP
- Tools: AdMob, GitHub, Git

## EDUCATION

### BS – Computer Science, Government College University, Faisalabad

Oct 2021 – Jul 2025

## PROJECTS

**Auto-Translating Chat App** (Java) — A chat application that lets each user pick a preferred language; incoming messages are automatically translated and displayed in that selected language.

**Ecommerce App** (Kotlin) — A shopping application covering product browsing, cart, and order flow for end users.

**Expenses Split** (Kotlin) — An expense-sharing application that generates and splits shared expenses among a group of users.

**GPS Map Camera** (Kotlin) — A camera app that captures photos and videos stamped with the live GPS location and map details.

**Islamic App** (Kotlin) — A daily-use Islamic utility app for prayer times, religious content, and related tools.

**Medical Store App** (Kotlin) — A complete offline-first medical store management app (Room + Firebase) with a five-tab bottom navigation, sales/profit dashboard with custom charts, stock alerts, and quick-action tools.

**Cam Scanner App** (Jetpack Compose) — A document scanning app, built entirely with Jetpack Compose, that captures and processes scanned pages.
